

FRIDAY FEB. 20, 2026
KIST LIVESTOCK • MANDAN, ND • 1 P.M.

135 BULLS • 60 BRED HEIFERS
RED • BLACK • SIMMENTAL • SIMANGUS™

SIMMENTAL PERFORMANCE • MATERNAL RESILIENCE

THE STAIGLES

Welcome to the Dakota Xpress annual production sale. We would like to thank you for your past interest and support of our programs and looking forward to working together in the future. Hope this finds you and your families in good health. So, the question is how many of you are actually reading this letter, because we have a damn good set of bulls and females in the offering. So, the test will be how many of you call to BS with us on our bulls or come for a visit.

Here we are in 2026, it feels as if we did all of this just a month ago, where does the time go? When you think about where the cattle market is today, do you think our ancestors would believe that it would take three steers at \$3000 at today's prices, to buy a bull? This is what we are seeing in the recent bull market. All indicators show a very similar market price to the 2025 fall calf price.

Our development program of the cattle includes they were vaccinated at birth with C & D, then at branding time in May they received Vista Once with 7 way/Somnus and went to native summer pastures with no creep feed. In mid-September calves are pre-vaccinated with Vista Once and 7 way with Somnus, and then upon weaning the first week in October they receive a booster vaccine and are poured with Clean up. Once weaned they are fed grass hay and are then transferred over to a high roughage ration developed for a 3.5 Lb. gain per day. This TMR ration is so important to develop bulls for growth and future longevity as we have used this program for many years and our customers have commented on how well the bulls hold their shape. The bull offering is the top 40% of all bull calves born on our ranches. The cows at Dakota Xpress must meet the criteria of easy fleshing, calve on their own, have good feet and leg structure, quality udder traits, disposition along with breeding back each year!

All bulls in the offering have been genetic tested 100K DNA for parentage, coat color, dilutor gene and polled status, along with an updated genetic evaluation of EPD's. More data is collected prior to the sale, to give more accurate yearling information, such as scrotal measurement, yearling weight and carcass measurement, this provides a more accurate picture of each

ETHAN STAIGLE • C: (701) 301-9655

bull. That information will be provided prior to sale day on our website: www.dakotaxpress.com and www.dvauction.com.

Dakota Xpress is continuing with the Star reference chart due to the positive comments from our customers. The STAR reference chart ranking our bulls with a STAR RATING gives you a quick guide using the data we receive from the American Simmental Association and genetic history of their dams. You will find the Star system explanation on page 7.

The sale heifers we selected were developed whether they stayed at home or were offered for sale, meaning they were selected from top cow families. They have been ultrasounded for pregnancy with calving dates and calf sex is determined if old enough at ultrasound date in August. The heifers have been DNA tested for parentage, coat color, dilution gene, and polled status. Many heifers are AI bred and have been vaccinated with the same protocol as our replacement heifers, with ViraShield 6 VL5-HB, ScourBoss or Guardian and poured with CleanUp.

With the larger offering, the genetic value has many options whether it be calving ease, color, performance, etc. and the #1, maternal! This is what raises quality cattle.

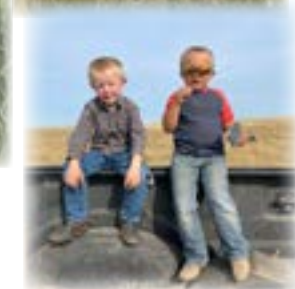

We welcome you to view the bulls and heifers at the Staigle and Hansen ranches prior to the sale, then the cattle will be moved to Kist Livestock in Mandan on Feb 17th with SALE DAY FRIDAY FEBRUARY 20th.

The sale will be broadcasted on www.dvauction.com the day of the sale. If you are unable to attend, please contact one of us or sales personnel to make arrangements to purchase the cattle you are interested in. Stay updated on our website www.dakotaxpress.com for future data.

2026 looks to be very exciting in the cattle industry, key in on the superior genetic opportunity of our sale offering. We look forward to seeing you at the sale, new and repeat customers! Thank you for your interest in our program! Remember we have a damn good set of cattle in the offering.

SALE TERMS: All cattle sell under the standard terms and conditions of the American Simmental Association. The full document will be available in the office on sale day. Terms of the sale are cash.

100% of each bull sells, including possession and semen interest. We will reserve the right to collect 100 units of semen on any bull for in-herd use only. This will be done at the sellers' expense and the buyers' convenience.

DISCOUNT: A Volume Discount of three percent (3%) off of the purchase price of three or more bulls is offered.

DNA TESTING: All bulls are DNA tested for parentage, coat color and Polled traits.

FEEDING & DELIVERY: A feeding and delivery contract can be made with Dakota Xpress in the office sale day. Bull delivery will start around the 1st of May with arrangements for delivery made at that time. For more information, contact Wade or Kevin

SUPPLEMENTAL INFORMATION: A supplement sheet containing carcass, scrotal and average daily gain information will be available sale day. EPD's may change between catalog print date and the date registration papers are received.

Carcass data, yearling weights and scrotal measurements will be available the week of Feb. 16, 2026. Look for it online at: www.DakotaXpress.com

CUSTOMER APPRECIATION: A customer appreciation lunch is served sale day, with a Buyer's Appreciation Supper after the sale.

SALE LOCATION: Kist Livestock Auction, Mandan, ND

VIDEOS Videos of all of the lots are available online at www.DVAuction.com and www.DakotaXpress.com

ACCOMMODATIONS

Sale Headquarters: Baymont Inn & Suites (Seven Seas) • (800) 597-7327
A block of rooms is reserved, under Dakota Xpress, at the above location until Feb. 10, 2026

Bismarck Hotel & Conference Center • (701) 258-7700

AIR SERVICE: Bismarck is served by Delta, Allegiant and United Airlines, and has excellent facilities for light aircrafts.

ALL BULLS WERE TESTED THROUGH THE AMERICAN SIMMENTAL ASSOCIATION UTILIZING THE 100K DNA TEST

HOW DOES A GENOMIC TEST BENEFIT OUR CUSTOMERS?

MORE ACCURATE EPD - Genomic testing is a way to add information to what is known about an animal's genetic potential even before they have progeny of their own. The commitment to add a genomic test to the genetic predictions enables our customers to have higher-accuracy EPD when they make their buying decisions. One way to think of the information gained is by asking how many progeny would this animal need to provide a similar increase in the accuracy of the EPD for that trait? These are referred to as progeny equivalents. Below is a table of current progeny equivalents. Adding a genomics test is like adding over 25 calving ease records or 22 birth weights on progeny to the EPD. As you can see for some of these traits, a genomically-enhanced EPD is like knowing an entire calf-crop worth of information for bulls or a lifetime of calves for females.

TRAIT	PROGENY	TRAIT	PROGENY
Calving ease	25+	Stayability	15
Maternal calving ease	4	Carcass weight	6
Birth weight	22	Marbling	10
Weaning weight	25+	Ribeye area	8
Yearling weight	25+	Back fat	11
		Docility	25+

CONFIDENCE IN THE PEDIGREE - Each genomic test includes parentage markers to both confirm the animal's own pedigree (if his parents' DNA markers are available) and for future parent verification of their own calves. By testing the DNA for parentage, you can be sure the pedigree is correct. **Your success is our success. We take our job seriously.**

COLOR & POLLED GUIDE:

Homo Black: All calves will be black if mated to a black or non-dilutor red cow.

Hetero Black: If mated to a non-dilutor red cow $\frac{1}{2}$ the calves will be black and $\frac{1}{2}$ will be red.

Homo Polled: All calves will be Polled.

Hetero Polled: If mated to a horned cow $\frac{1}{2}$ of the calves will be Polled and $\frac{1}{2}$ will be horned.

Non-Dilutor: If mated to a Hetero black cow, $\frac{1}{2}$ the calves will be black and $\frac{1}{2}$ will be red. If mated to a Homo black cow, all calves will be black.

Dilutor: If mated to black cow, you might get a grey calf.

THE VALUE OF NUTRITION AND THE POWER OF YOUR NEXT BULL PURCHASE

The proper care, feeding and management of a young sire will insure that you will be happy with the return on investment. By managing yearling bulls properly, your investment will return dividends for many years down the road. Dakota Xpress takes pride in the development of our bulls. Our bulls are feed a high roughage ration consisting of corn silage, chopped hay, corn, corn distillers, and a mineral and vitamin package. The TMR bull ration is fed to develop frame, muscle, and scrotal development without fattening the bulls. This ration has worked well to alleviate problems with fertility, feet and leg problems, and to ensure the longevity of the bulls.

At Dakota XPress the fertility of the herd bull is even more important than its growth performance. So in addition to protein and energy, we make sure that the rations contain an adequate trace mineral package. Therefore the mineral package contains chelated zinc, copper, manganese, and organic selenium to enhance reproductive performance. The cow herd also receives a mineral package to enhance their reproductive performance as well.

Dakota XPress understands the investment you are making in these young herd sires. We would like to help you develop the bulls after the sale through our feeding, fertility testing and delivery program. Details are available at the sale or any time prior to sale day by contacting Wade or Kevin.

ASA breed average for SimAngus bulls	11.5	0	77.9	121.2	0.27	7	23.9	63.1	15.1	12.6	37.9	-0.18	0.39	0.69	135.2	82.8

Cells shaded in tan indicate traits in which Dakota Xpress bulls match or EXCEED the national average!

EPDs change weekly with the new BOLT program running.

QUICK REFERENCE STAR TABLE

Created by Dakota Xpress in ranking our bulls • Ease in ranking bulls for cattlemen

CALVING EASE: Calving Ease stars are ranked on the CE/BW EPD's, along with cow family pedigree and BW ratio's when considering use on heifers. With that thought, a bull with 1-5 stars can be used on any mature cow, and 4-5 stars for possible use on virgin heifers and on cows coming with their 2nd calf.

EPDs	
CE	4.1
BW	2.9
WW	102.7
YW	154.1
MCE	3.9
MM	27.8
MWW	79
API	130.2
TI	87.4

CARCASS: The carcass star ranking is based on the combination of either ribeye or marbling EPD whether they excel in one or the other or both for improving carcass traits. A 5-star rated bull will potentially increase overall carcass traits.

Calving Ease	Performance	Maternal	Carcass
★	★★★★★	★★★★★	★★

PERFORMANCE: The star ranking for weaning/yearling performance is based on growth EPD's and dam's ratios for growth, making the 5-star rated bull the highest performing bulls for weaning and yearling weights.

MATERNAL: The maternal star ranking is based on the maternal weaning weight EPD along with maternal milk EPD, this makes a 5-star rated individual the highest in maternal traits.

SIMMENTAL PERFORMANCE *backed by 50 years of* MATERNAL RESILIENCE!

SIMMENTAL: Known as performance cattle with maternal resilience!

This philosophy is the continued direction with Dakota Xpress! Our cowherd has proven genetics working from Georgia's hot, humid, southern climate to the dry, rugged terrain and higher elevation of New Mexico to the sometimes extreme cold environment of the northern states.

Being the most profitable crossbred cattle in the business, Simmental genetics offer feedlot efficiency, fertility, quality feet and leg structure, carcass qualities, and maternal strength, making them a strong selection in the marketing world. *From Dakota Xpress's inception we have continued to constantly maintain these traits with the main plan for profitability back to the commercial cattle producers.*

It takes a lifetime or even more to build a set of cows that are fault free, meaning good calving ease, disposition, quality udder and to breed back every season. These cows are what it takes to make the solid, power-packed bulls to offer to the commercial industry.

Dakota Xpress is made up of 2 family ranches, breeding cattle that are very similar with the same goals in mind. Family operated daily, family values for the new generations to produce a cow herd that is managed and maintained in a commercial herd environment without extra pampering, these cows are working cows. *Our seedstock cows graze as long as weather allows into the fall and early winter making these cows work for the ranch and do their job with no pampering!* They have endured cold wet springs, hot summer temps and cold harsh winters making them built for diverse environments. The cattle are fed with our products grown at the ranch except

DVAuction

Broadcasting Real-Time Auctions

Can't make the sale? Bid from home with DVAuction's "real-time" internet bidding service! Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab.
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction - a DV representative will notify you when you are approved.
3. Tune in for the sale and make your purchases!

After the sale, contact Dakota XPress to arrange transportation and payment. High speed internet is required for successful bidding – be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding: If you can't make time to watch the sale, register a proxy bid and DVAuction will represent your bid while you're away. Look for the "proxy bid" tab on the auction listing and fill in your maximum bids. They'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. DVAuction support can always be reached at (402) 474-5557.

★★★	★★★★★	★★★★★	★★★★

SO, GOD MADE THE *farmer's wife.*

And on the 9th day, God looked down on His planned paradise and said,
"Oh dear, the farmer is going to need help,"

SO, GOD MADE THE *farmer's wife.*

God said, "I need somebody who will get up at dawn, make breakfast, work all day in the kitchen, bank, school and alongside her farmer and then come home to fix supper and wash the dishes, sew her children clothes and do the mending.

SO, GOD MADE THE *farmer's wife.*

God said, "I need someone willing to sit up all night with their sick child or a rejected lamb in her kitchen. And watch her children grow. Then pray each morning and night to keep them safe and teach them to say "please and thank you." Make sure her family all went to the doctor but refused to go herself. Always saying, "Im' fine" evn when she wasn't.

SO, GOD MADE THE *farmer's wife.*

I need someone who can stretch a paycheck or thicken a soup, feed all the family, farm workers and guests. Protect her children from knowing they were poor, and teach them that they were rich in their lives. Encourage them to travel and see the world. Who will work and save money so they could go to whatever college they wanted, to follow their dreams. Who can clean her house all day every Saturday along with washing 5 loads of laundry after a full week of work and find time to work in her rose garden."

SO, GOD MADE THE *farmer's wife.*

God said, "I need someone willing to put up food for the winter, always have the refrigerator full, do all the farm bookkeeping and secretarial work, agree to purchasing farm equipment to try and make her husband's life easier, sign a loan with steady hands, yet calm the farmer when weather or disease threatened to destroy his crops and animals. Who would volunteer to be a den leader, a 4-H camp counselor, 4-H leader, work as secretary and treasurer on boards, teach Sunday School, always running and working on Grange and Church suppers and always help out family and friends in need.

SO, GOD MADE THE *farmer's wife.*

God said I need someone that on Sundays, after a 200 hour work week, would make breakfast, make beds, start to prepare a noon meal, dress all the children and their farmer in their Sunday best to go to church and after church, dinner and sishes insist on spending tifaamily time taking rides in the country.

Somebody who'd sew all the family - grandparents, brothers, sisters, nieces, nephews, children, grandchildren, great grandchildren - together with strong stitches of sharing an love. Who'd greet everyone with open smiling blue eyes and ask "what's new" with open ears.

And who in later years will push the farmer to slowdown, travel , get that little school house in Vermont to escape to and still carry on their commitments to the family and the community they lvoed.

SO, GOD MADE THIS *farmer's wife.*

Marcy Hansen
1940 - 2025

Janet Staigle
1940 — 2026

Thanks, Mom
FOR MOLDING US AND OUR FAMILIES

"Strength and honor are her clothing;
she can laugh at the days to come.
She speaks with wisdom, and faithful
instruction is on her tongue."

— Proverbs 31:25-26

Celebrating 50 years of **SIMMENTAL PERFORMANCE** *and* **MATERNAL RESILIENCE!**

The cattle business requires exceptional resilience in the face of numerous challenges. Since the 1970's, Dakota Xpress Simmental cattle have helped our families navigate changing market dynamics, fluctuating input costs and more. They've withstood droughts, floods, and blizzards while maintaining their health and reproductive strength.

The resilience needed in the cattle business is not just about enduring challenges; it's about innovating and improving. Over the past 5 decades, we've cultivated a deep understanding of the cattle business. Our steadfast commitment to resilience underscores the dedication and passion required to thrive in the cattle industry over such a significant span of time, and ***we invite you to prepare for the years ahead by putting Dakota XPress genetics to work for you!***

MLC Ms
Colorado
with her
first calf.

MATERNAL RESILIENCE • Noun •

Definition: The innate ability of ***Dakota Xpress*** cows to withstand challenges, adapt, and continue to effectively raise healthy, heavy calves. ***It's what they've been bred to do for decades.***
